Bubbler status Michele 22/11/23

ction: bucket 16 and bucket 25 only.

<u>Ilection</u>: proc12 + buckets 16-25 (excl. exp12 due to TSIM issue)

nt MC. No clear improvement from exp8 onwards.

- Replacement of supply-side panels more involved than return side (see pictures in the next slides)
 - At worst not able to read 5/32 supplyside
- Could use spare panels at ISU to replace problematic return-side panels (BB5IR, BB5OR ...)

Table 1: Return side, barrel backward, inner RPCs.
