

Welcome to TRG/DAQ workshop 2025

2025/10/22

T.Koga

Belle II TRG/DAQ workshop

-We are happy to held the ~~annual~~
Belle II TRG/DAQ workshop 2025
at Osaka, Umeda.

Thank you very much for your
attendance just before 2025c operation !

-This workshop has been held annually in several places in the world
since beginning of the Belle experiment in 1995

-The last workshop was held
2022 at Nara, after suspensions
by COVID-19

-no workshop for three years

Belle II TRG/DAQ workshop 2025

-Our situation has been updated since 2022:

-RUN2 operation has started.

High luminosity of $O(10^{35})\text{cm}^{-2}\text{s}^{-1}$ will come soon.

Are you ready for the high luminosity ?

How will you improve present system ?

-LS2 is postponed to 2032.

Detector/TRG/DAQ upgrade at LS2 becomes realistic and important.

How will you upgrade your system ?

-Let's discuss our present status, improvements during RUN2, and upgrade at LS2.

-Please enjoy the workshop for the first time in three years!
