

Workshop

Belle II & Theory

1st - 3rd July 2026

Vienna University of Technology, Austria

The Belle II & Theory workshop intends to bring together members of the Belle II experiment with the theory community at large. The program is organized jointly and covers all aspects of the Belle II physics reach. Belle II will soon enter its inverse attobarn era, pushing beyond the sensitivities of the predecessor e^+e^- B factory experiments.

Organisation: Brigitte De Monte, Christoph Schwanda, Soeren Prell, Florian Bernlochner

Design: Veronika Kratzer

Program:

TDCPV

Conveners: Michele Veronesi, Robert Fleischer, Ryogo Okubo, Thibaud Humair

Theorist speakers: Kristof de Bruyn, Olivier Deschamps, Eleftheria Malami

EWP

Conveners: Danny van Dyk, Gaetano de Marino, M ril Reboud, Sally Stefkova, Wolfgang Altmannshofer

Theorist speakers: Jack Jenkins, Lukas Allwicher, Matteo Fael, Wolfgang Altmannshofer

QIS

Conveners: Laura Zani, Regina Demina

Theorist speakers: Beatrix Hiesmayr

Tau

Conveners: Laura Zani, Emilie Passemar, Petar Rados

Theorist speakers: Antonio Rodriguez Sanchez, Maxim Pospelov

Dark

Conveners: Luigi Corona, Marcello Campajola, Michele Tammaro

Theorist speakers: Michele Tammaro, Matteo Borrello, Patrick Bolton, Francesca Acanfora

Hadronic B

Conveners: Xin-Qiang Li, Sebastiano Raiz, Luka Santelj, Xiaodong Shi

Theorist speakers: Leon Heuser, Gilberto Tetlalmatzi-Xolocotzi, Robert Fleischer

Upgrade

Conveners: Alessandro Gaz

Theorist speakers: Ludovico Vittorio, Roberto Franceschini

SLME

Conveners: Florian Herren, Markus Prim, Raynette van Tonder

Theorist speakers: Alexandre Carvunis, Luka Leskovec, Max Ferre

Charm

Conveners: Jake Bennett, Seema Bahinipati, Gudrun Hiller, Alexey Petrov

Theorist speakers: Stefan Schacht, Dominik Suelmann, Anshika Bansal

Quarkonium

Conveners: Roman Mizuk, Sen Jia, Feng-Kun Guo

Theorist speakers: Nora Brambilla, Nils Huesken, Xiang-Kun Guo
