

Setup for basf2 hands-on

Frank Meier

Belle II Summer Workshop
12 – 16 July 2021

Setup

1. log into kekcc
2. create analysis directory for hands-on session: `mkdir USBelleIIHandson` (or any other name of your choice)
3. change into this directory: `cd USBelleIIHandson`
4. load Belle II software tools: `source /cvmfs/belle.cern.ch/tools/b2setup`
5. setup specific Belle II software release: `b2setup light-2106-rhea`
 - ▶ steps 4 and 5 can be combined into one command:
`source /cvmfs/belle.cern.ch/tools/b2setup light-2106-rhea`
6. copy skeleton template into your directory:
`cp ~fmeier/BelleIISummerSchool2021/simpleBu2DKReconstruction.py .`
