Mini-workshop on missing particle signatures and new physics at Belle II and LHCb

5 Jul 2021, 16:00 → 6 Jul 2021, 20:00 Asia/Seoul

Yonsei Univ.

Tel Aviv Univ.

This Mini-Workshop is made possible through the Yonsei-Tel Aviv joint research program.

The organizers

Abi Soffer (Belle II)

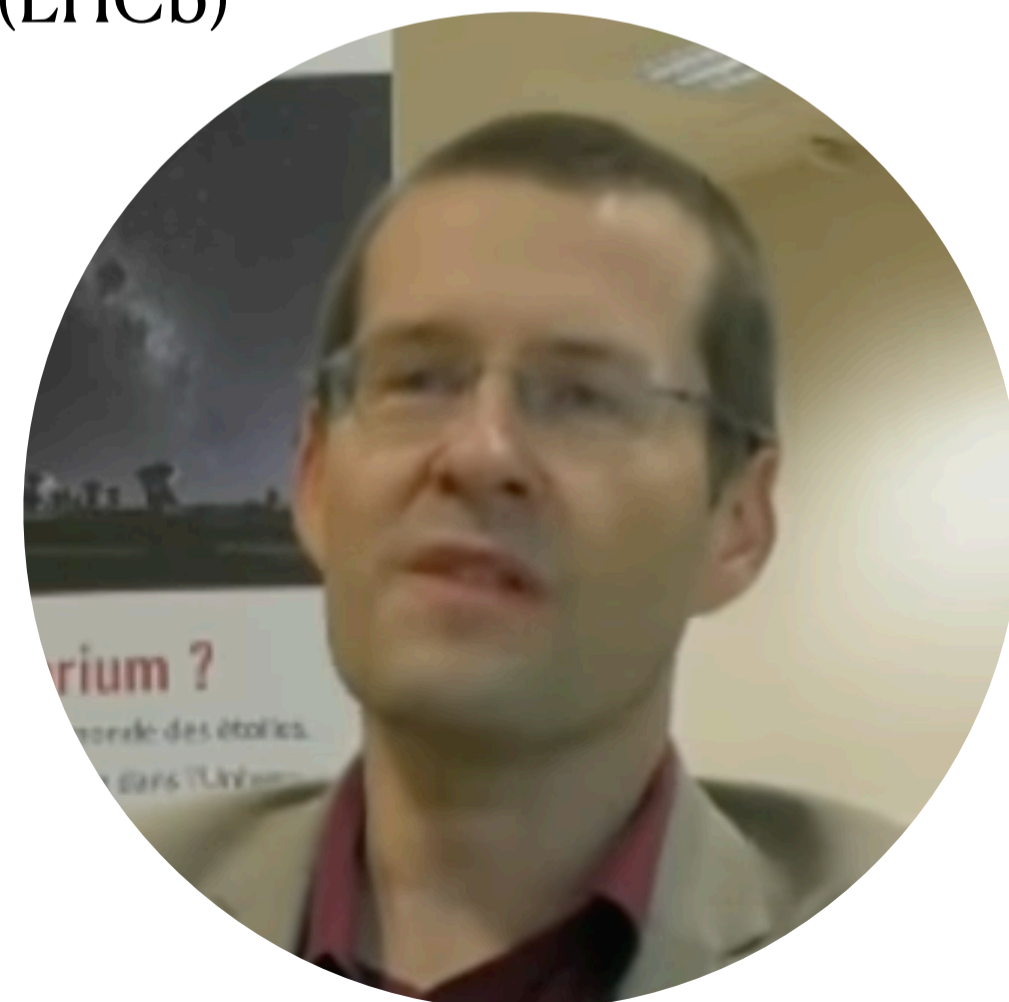

Patrick Koppenburg (LHCb)

Youngjoon Kwon (Belle II)

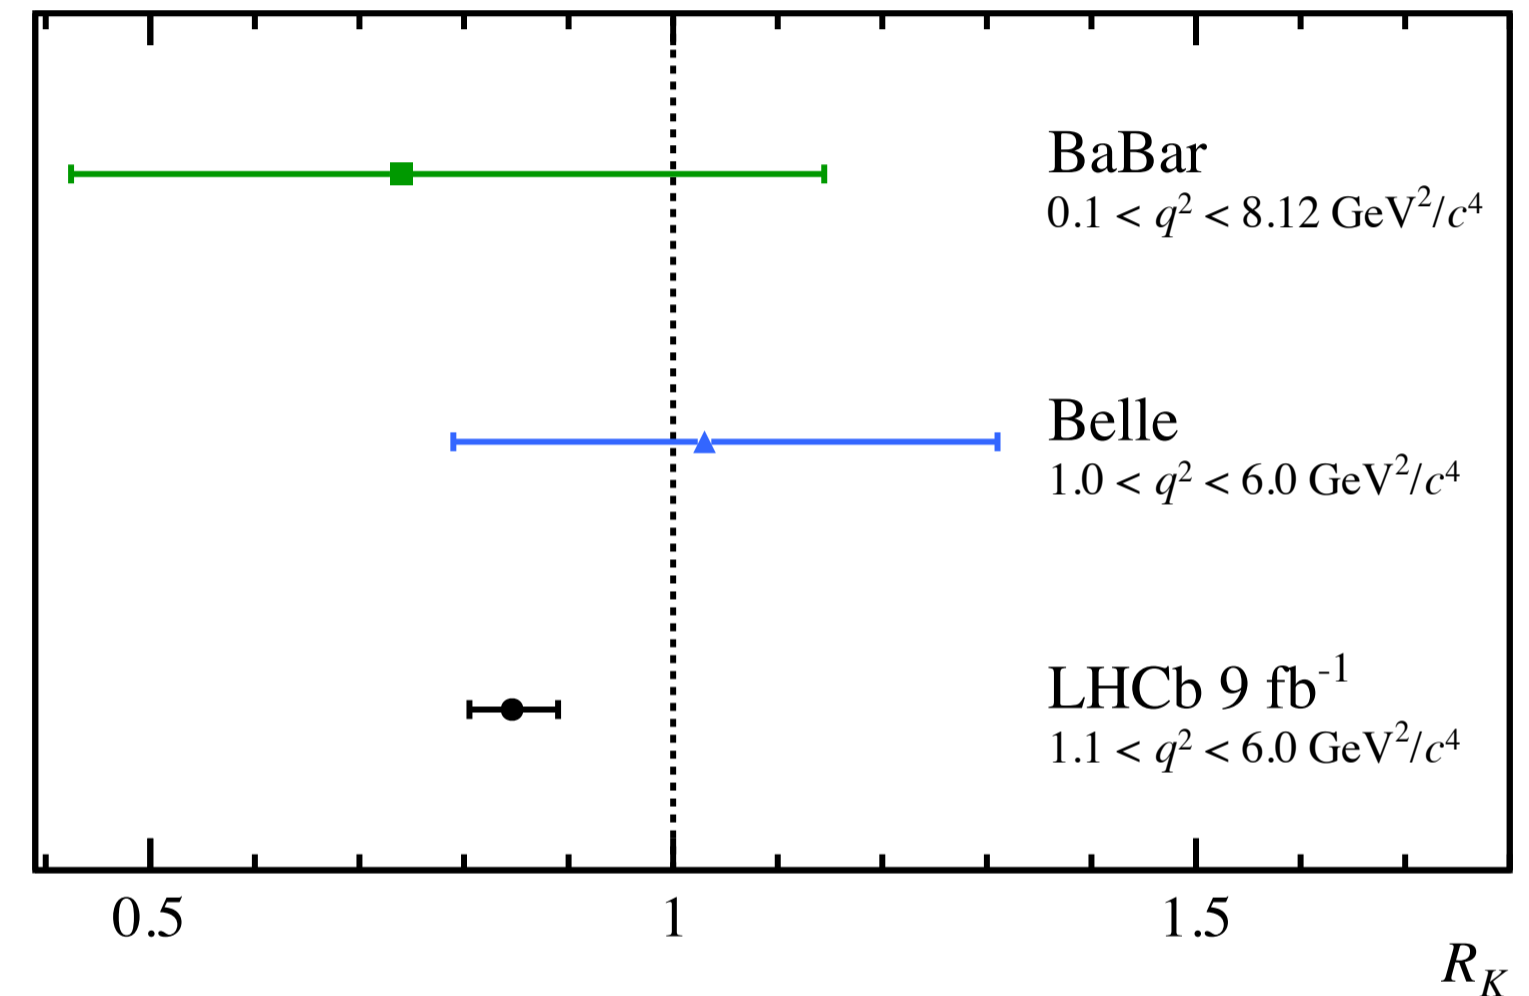

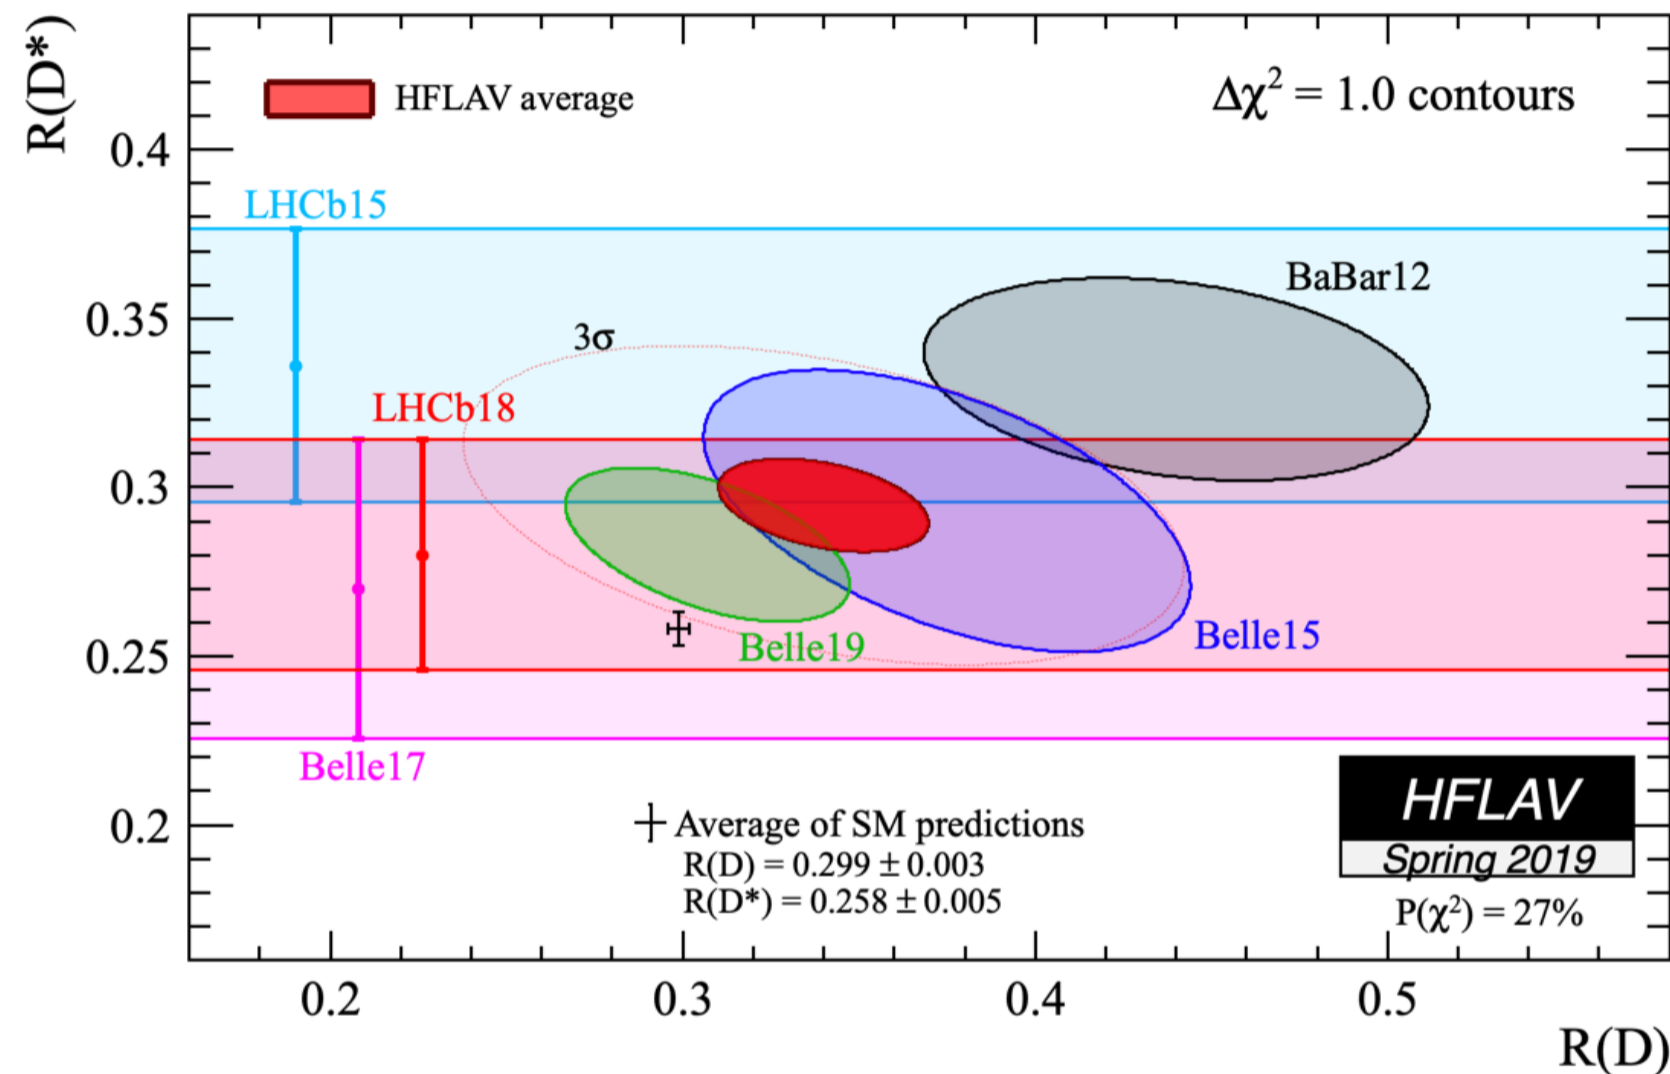

Pyungwon Ko (theory)

Sebastien Descotes-Genon (theory)

Motivation of the Mini-Workshop

- signs

- techniques using invisible modes
 - $B \rightarrow X\tau\tau, X\tau\nu, X\nu\bar{\nu},$ etc.
- interpretations and prospects

(Note) Each talk is given 25+10 min, implying that thorough in-depth discussions are very much encouraged!
