

Snowmass White Paper and Next Meeting

Long Term Planning Process of U.S. Particle Physics Community

Snowmass White Paper – from email

Announcement of the Snowmass Delay Guidelines - January 2021

Dear members of the Snowmass community,

Because of the COVID-19 pandemic, the Snowmass Report and the Community Summer Study meeting (CSS) will be delayed by one year until 2022. The overall schedule for the Snowmass process will be adjusted accordingly. After extensive consultation with our community and the frontier conveners/advisors, the Snowmass Steering Group recommends the following general guidelines for the implementation of the Snowmass delay:

- High-level activities will be on hold until the end of June, 2021.

These activities include Frontier-level and Topical Group-level workshops,

All-conveners meetings, Advisory Group meetings and Newsletters.

- Other Topical Group and cross-frontier activities should be either paused or reduced to a significantly lower level, proceeding only as necessary to ensure scientific continuity, meet essential programmatic needs, or maintain collaborative work with other units and communities.

- o No critical decisions will be made during the hiatus.

- o No individuals should feel obligated to participate in these activities.

- Individual, collaborative and self-organized work can continue at the discretion of the individuals involved.

All paused individual or group activities will continue to receive full consideration once the Snowmass process formally resumes.
