

Challenges for a global inclusive analysis

Thursday, 2 November 2023 14:20 (30 minutes)

Status (only M_x and E_l moments used), pros/cons of leptonic and hadronic moments. Would a global analysis ever be possible (and useful)? Guidance towards a global analysis -> fit OPE parameters, quark masses, BR

Presenter: BORDONE, Marzia (CERN)

Session Classification: Workshop: Vcb inclusive
