

- Breadboard assembly with one multiplexer working as expected
- To-do: testing with different frequencies on different channels
- Adil getting familiar with the program

```
Active channels: [0]
Active channels: [8]
Active channels: [8]
Active channels: [8]
Active channels: [8]
Active channels: [8]
Active channels: [8]
Active channels: []
Active channels: [1]
Active channels: [1]
```
